

De Kinder Team

Genevieve Chang
Founder and
Managing Director
De Kinder Club
Singapore

Genevieve Chang is the Founder and Managing Director of De Kinder Club, a premier preschool education centre for little learners, aged 6 months to 6 years old. Established in 2019, De Kinder Club has been receiving positive reviews from both local and expatriate parents for its multi-disciplinary approach that focuses primarily on experimental learning.

While following in the footsteps of her mother who ran a private education business, Genevieve's impetus for starting De Kinder Club was largely fueled by her two young sons, Andrew, aged 5 and Evan, aged 3. She noticed that not only were her boys literally hungry all the time, they were also hungry for answers to the many questions they had about the world they lived in, and the way things worked around them. With the desire to create a positive learning environment for her kids and other young children, and a firm belief that academic success and character development go hand in hand, Genevieve left a successful career in private banking to start De Kinder Club. Through De Kinder Club, Genevieve aims to create an interactive, fun, comfortable and inviting space, where kids can always look forward to learning; with innovative classes that utilize multi-disciplinary approaches in which children learn best – with all their senses.

Genevieve holds a Finance degree with Honours from the National University of Singapore's Business School, and had ten years of experience in the banking and finance industry, specifically in Private Wealth.

Miss Jeslin has a wealth of experience working both at the front line of the early childhood industry, working with children in preschools and enrichment centres, and in the ministry and preschool teacher training institutions, working on early childhood sector planning and coordination. In these institutions, she honed an astute understanding of the local Singapore education system. "Inspire little lives and let them inspire you too", is a quote that strongly resonates with her when it comes to working with children.

Miss Jeslin holds a Master of Science in Early Childhood Education from Wheelock College, Boston University, with her final research done on Multicultural Education. Before her Masters, Miss Jeslin graduated with a Bachelor of Arts in Communications. Her other interests include travelling and experimenting on cooking new dishes.

Teacher Eshlyn has been in the teaching and education industry for close to ten years. She is a qualified early childhood educator who has taught in various educational settings such as special needs schools, inclusive schools, international and local preschools. She believes in building children's character to achieve their highest potential in all that they learn. With her experience in working with children, she has an eye for identifying children's behaviour, and strives to improve their behaviour for the better.

Her teaching methodology includes inculcating sensory play and integration, engaging and purposeful learning, and an emphasis on respecting children's needs and wants through verbal and nonverbal communication. She enjoys creating a classroom environment where children can dream to be whoever they want to be - a belief that stems from allowing children to fully engage and participate in their early years.

Teacher Eshlyn also holds a Degree in Social Work, where she was trained to understand human lifespan and behaviours. She also knows basic sign language (ASL), and possess the CELTA (Certificate in Teaching English to Speakers of Other Languages) from the British Council, University of Cambridge. Her other interests include reading about catholic theology, floral arrangements, visual designs, cycling and bouldering.

Eshlyn Lim
Curriculum Specialist
and Head Teacher

Wynn Law
S.T.E.A.M Educator

Teacher Wynn, a former Biomedical Electronics Engineering & Software Engineer believes that all children deserve an education that would give them opportunities in future jobs that relate to science, technology, engineering, and mathematics.

Teacher Wynn is trained in Biomedical Electronics Engineering, and has years of experience working with children 3 – 12 years old, both in local and international schools. She hopes to break down seemingly tough concepts to a bite-sized, age-appropriate manner, so that children can benefit from understanding them and consequently understanding how the world around them works!

Teacher Mingli has been practicing yoga for more than 10 years. From her first lesson, she was amazed at how different poses can be executed with so much grace within the perimeters of a yoga mat. Teacher Mingli has years of experience conducting children yoga sessions in schools and studios.

She is certified in teaching both adults and children yoga, and is also trained in Pre- and Post-natal yoga. Though her sequences are robust, she uses a gentle and creative approach to help children explore poses and breathing exercises. She is especially inspired by young children who are open to learn new things.

Li Mingli
Yoga & Mindfulness
Instructor

Jasmine Yap
Multisport Coach

Coach Jasmine is extremely passionate about sports, with a special interest in high performance sports. She has years of experience conducting multisport and soccer classes for children as young as 3 years old, teaching little ones the fundamentals of various sports and importantly, appropriate sports conduct, and encouraging them to be physically active. Children thoroughly enjoy Coach Jasmine's classes as she makes sports engaging and fun! She believes that children should have an exposure to a wide variety of sports, which would likely increase their performance in specific sports in future and reduce injury rates.

Coach Jasmine holds a Diploma in Sports Science, is AED trained, and is a certified first aider. She plays badminton competitively and has clinched multiple awards over the years.

Teacher Jenny has played international chess since the tender age of 6, and believes that the game of chess had a huge influence not only in her cognitive skills, but more importantly in shaping her character and emotional strength. She went on to hold numerous leadership positions and pursue robotics and game development when the field was still in its early stages here in Singapore. She hopes to share her knowledge and interest in the game of chess with little ones, utilizing her knowledge of game development to make the classes age-appropriate, fun and engaging!

Teacher Jenny was placed third in the 2007 Singapore Chess Federation National Competition, and her professional portfolio includes developing games that would aid elderly in occupational therapy.

Jenny Liang
Chess Instructor

Lina Soon
Zumba Instructor

Teacher Lina's dream is to incorporate learning concepts into Zumba classes, so children not only build fitness in a fun way, preschool learning concepts and knowledge about the world and cultures are also incorporated. Teacher Lina has years of experience conducting Zumba events and classes for preschools and Primary schools, and her classes are always very well received by parents, teachers and most importantly the children!

She is a Certified Zumba® instructor and ZIN™ Member, licensed to teach Zumba®, Zumba Gold®, Zumba® Kids & Kids Jr. Additionally, she has a Diploma in Education and was a former Primary School Teacher.
